

Technical Staffing Solutions

Project Resources Group understands your job staffing requirements and has the technical expertise to ensure your projects are on time and under budget, anywhere in the United States. We deliver experienced staff professionals for either short or long-term jobs with the flexibility to cover all of your project demands.

PRG has a nationwide footprint and a proven track record of delivering on schedule. We eliminate the need for internal hires by providing reliable project staffing, monitored quality assurance, and the confidence that comes from years of experience in the field. Our staff will relocate as necessary to ensure that the needs of your project are met across markets.

With a single point of contact focusing specifically on your project objectives and timelines, we remove technical staffing issues from your day-to-day responsibilities. PRG provides personnel with the skills and field experience to begin contributing immediately to your businesses. Contact us today to discuss your needs.

Why PRG?

EXPERIENCE

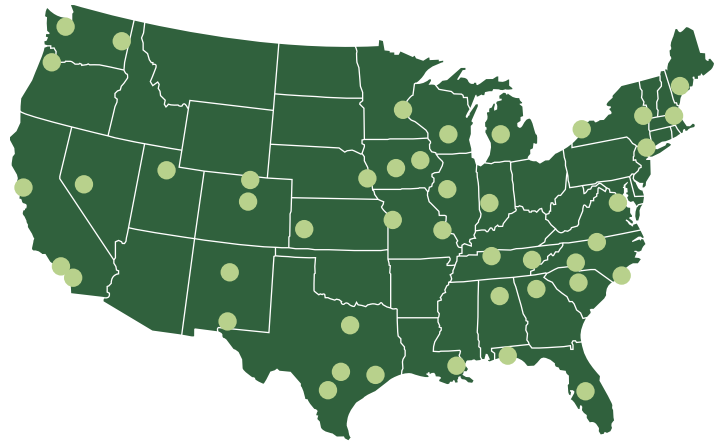

Since 2001, PRG has been a leading provider of communication construction management, network infrastructure, plant damage investigation and recovery. We specialize in project and program management, outside plant damage cost recovery services, and technical support.

LEADERSHIP

PRG's leaders include well-known and respected executives from the communications and cable industries who bring years of expertise from careers with major service providers. Each has spent years focusing on identifying risk areas while designing and helping implement value-added solutions. This experience has become the core foundation of PRG and the services we offer today.

RESULTS

We build solutions that help drive sustainable profitability through conservation of resources, improved efficiency, better customer relations, and increased earnings.
